FEAR GERMAN WRATH

British Press Aroused and Alarmed Over Criticisms.

NORTH GERMAN GAZETTE'S ATTITUDE

Chamberlain's Ill-timed Remarks May Cause Trouble Yet.

WHAT THE PAPERS SAY

LONDON, November 22.—The fact that the anti-Chamberlain agitation in Germany has at last extracted a semi-official expression of approval from the North German Gazette has had the effect of convincing the British press that the situation is becoming serious. Heretofore, there had been a disposition to disregard and belittle the influence of the agitation. Now the papers are taking trouble to explain that Mr. Chamberlain's words were not intended to insult or offend Germany.

"The temper of the German public is dangerous," says the Morning Post, and it behooves our people to be on their guard. The Germans appear to regard Great Britain as covetous, rapacious and barbarous. From that belief to the corollary that a barbarous nation ought to be suppressed is a short and easy step.

The Daily News remarks: "Mr. Chamberlain, as the French say, 'costs dear.' The new imperialism which was to strengthen our position in the world has left us without a friend. America cannot supply us with what we have lost in Europe, for the German, Dutch and Irish elements in that country are today more hostile to us than they were during the Venezuelan trouble."

Daily Chronicle's View.

The Daily Chronicle, which admits that the agitation is the "outcome of misrepresentation of Mr. Chamberlain's ill-judged and ill-timed remarks," says: "This does not diminish the gravity of the situation. It is a sign of the times that Lord Salisbury's self-congratulation at the Guild Hall at the correct attitude of the great powers is beginning to be falsified."

Referring to "the scurrilous attacks made by the German press," the Daily Chronicle concludes as follows: "Unless the authorities restrain the unlicensed abuse of England in the German press, we fall to see how this country can much longer ignore these accumulated insults."

The Standard and the Daily Telegraph are much less alarmist in tone, but they recognize that "such agitations, even when artificial, are not always harmless, and it is a good thing that the relations between the two governments are so friendly and that Queen Victoria's blood runs in the Kaiser's veins."

The News From Berlin.

All the papers publish long specials from Berlin describing the public feeling and agreeing that the article in the North German Gazette is a proof that the German government is altogether powerless to stem the agitation, which is intended, if possible, to force Count von Buelow into some anti-British pronouncement.

The Times, defending Mr. Chamberlain against German attacks, says: "We must beg to remind the Germans that we claim an equal right to guard our own honor and to resent accusations founded upon the most hateful and poisonous calumnies disseminated with a deliberate persistence inexcusable in a friendly community."

"We hope the German people and government will understand that the British nation will not acquiesce in any impeachment of the honor of our gallant soldiers, which is as dear to us as is that of the German army to the German nation."

ADOPTS CONSTITUTION.

Amalgamated Textile Workers Elect Officers—Resolutions Adopted.

At the session of the United Textile Workers of America yesterday the convention completed the new constitution by which the different organizations of textile workers which have united are to be governed hereafter. The following officers were elected: James Tansey, Fall River, Mass., president; S. P. Thompson, Columbia, S. C., first vice president; M. J. Connor, Thompsonville, Conn., second vice president, and Albert Hibbert, Dover, N. H., secretary.

A number of resolutions on subjects of national interest were adopted, including the following: Condemning the "silly bill" as the worst form of class legislation, in that it proposes to tax all the people for the benefit of a few; interests whose overflowing coffers show they are abundantly able to take care of themselves; "that we stand by the doctrine of equal rights to all citizens, and oppose to none, and oppose all forms of subsidies and gratuities to private interests," asking that Congress strengthen and re-enact the Chinese exclusion law, including in its provisions all Mongolian labor; and urging the passage by Congress of a law forbidding the immigration into this country of persons fifteen years of age and upward who cannot read the English language, or some other language.

The following executive council was appointed: Thomas O'Donnell, Fall River, and Samuel Ross, New Bedford, representing the spinners; Matthew Hart, New Bedford, representing the weavers; John Murphy, New Bedford, and Thomas Taylor, Fall River, representing the loom fixers; John Waldron, New Bedford, representing the carders; Mousie Douglas, Pittston, Pa., representing the silk workers; Miss Annie Nash and H. J. Whiteman, both of Jamestown, N. Y., representing the woolen workers; and B. H. Carter, Langley, S. C., and J. M. Miller, Columbia, Ga., and I. B. Wilkinson, Danville, Va., representing the cotton workers of the south.

It was stated by one of the delegates to the convention that as trouble had been occasioned last year in Alamance county, S. C., by the operatives in that section going out on strike, and that a provision had been made for their maintenance, a large bill had been contracted by the affected people with the storekeepers in the vicinity. An appeal had been made to the organization affected by the strike and unless it is answered in a short time the executive council of the new organization, has been authorized to make an assessment on the organization for the purpose of wiping out the debt. This action was taken because the organization had been a part of the United Textile Workers of America. This action is considered by one of the visiting delegates to mean the intention of the intelligent and complete organization of the entire south.

It is believed the convention will close its business this evening.

WANTS COMMITTEE DISCHARGED.

Charles W. Shiles Petitions for Restoration of His Rights.

About two years ago Charles W. Shiles was adjudged insane by the Supreme Court of the District and committed to the Government Asylum. His property, which is said to be of the value of \$40,000, was placed in the care of Benjamin F. Leighton, who was appointed committee. Today the court is asked, in a petition filed by Edward G. Niles, attorney for Mr. Shiles, to review the proceedings had against him and to discharge the alleged lunatic and restore to him his property rights.

Dr. A. B. Richardson, superintendent of the asylum, and Dr. Amos J. Glivena, physician, have no objection to the discharge of Mr. Shiles, and the petition will therefore meet with no opposition.

DISSENTIONS MAY LEAD TO FORMATION OF TWO DIVISIONS.

Division 101, Street Railway Employees' Union, seems to be torn with factional troubles which may result in the formation of two separate unions. The statement was made recently that John E. McCrackin, president of the union, and Captain L. B. Dows, general purser of the National Association of Masters and Pilots of Steam Vessels of the United States, were in the city yesterday on business with General Dumont, the inspector general of state vessels, for the association. The minutes of last week's meeting, at which Nairn had been expelled, were not approved at the meeting held on Wednesday night, but this action, they said, did not give Nairn the right to be present at the meeting. They state that the constitution provides that a quorum shall consist of ten men, but that the power of calling a meeting is vested in the president.

A statement has been made by Mr. McCrackin in regard to the financial condition of the union, in which he says that the funds expended has been for sick benefits. He declares that the accounts and books have recently been audited and approved by the union.

PARTED WITH HIS MONEY.

Horton Wells the Victim of a Confidence Man.

Horton Wells, a young colored man, came here about a week ago from Fairfax county, Va., looking for employment. While out seeking a position yesterday he met a colored confidence man near the Baltimore and Potomac depot. The conversation in which he engaged was a short one, but it consumed a long enough time for him to part with \$30 of the money he had earned on a farm before he came here. He was in the vicinity of the depot hoping he would run across some one who would give him employment, when the strange colored man accosted him and asked him if he wanted work. According to the statement of the stranger man he had at his disposal a position as porter in a wholesale dry goods store at a salary of \$30 a month. A place of this kind was just what would suit him, and Wells promptly said he would accept it. He had no references, and at the suggestion of the confidence man he placed his money (\$30) in an envelope. This money was to be used as an evidence of the standing of the applicant for the position. After the money was put in the envelope Horton was given a substitute envelope, and just then the stranger remembered that he had an engagement in a nearby saloon. He asked Horton to wait a minute, and when he failed to return several minutes the envelope was opened. It contained several pieces of paper instead of the money.

DEATH OF ROBERT McMURRAY.

Well-Known Character, Once Governor of District of Columbia.

Robert A. McMurray, who was well known about the city and at suburban resorts as the "lightning calculator," and of late years as a dog fancier, died at the Emergency Hospital about 5 o'clock yesterday afternoon. His death was due, it is said, to the excessive use of liquor, and although there were many to express friendship for him during his life, nobody could find fault with him who was willing to pay for having the body prepared for burial. This morning his body was removed to the morgue and relatives in Williamsport, Pa., were notified of his death. A son and two daughters, it is stated, live in the Pennsylvania town.

McMurray was about sixty years old. He was employed in the Treasury Department for a number of years at a good salary, but lost his position when he was dismissed on account of his intemperance.

From time to time he owned many trick dogs and gave exhibitions on street corners in bar rooms and in the lobbies of hotels. He also carried a blackboard at times and showed his skill at handling figures. In this way he managed to eke out an existence, as people who were entertained usually contributed small amounts of cash. He spent his nights last summer at pleasure resorts on the suburban lines. About a week ago he was taken sick in front of the District building and was taken to the hospital, where he died.

Capt. Gilmore Visiting the City.

Gilmore is attached to the coast artillery and has been recently stationed at Fort Totten, N. Y. He is well known in this city through his long service at the White House in connection with state and social functions.

THE OLD WAY.

OF TREATING STOMACH TROUBLE AND INDIGESTION A BARBAROUS AND USELESS ONE.

We say the old way, but really it is the common and usual one at the present time, and many dyspeptics, and physicians as well, consider the first step in attempting to cure indigestion is to diet, either by selecting certain food and rejecting others, or to greatly diminish the quantity of food usually taken.

In other words, the starvation plan is by many supposed to be the first essential in the cure of weak digestion.

The almost certain failure of the starvation cure for stomach trouble has been proven time and again, but still the usual advice, when dyspepsia makes its appearance, is a course of dieting.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a person suffering from dyspepsia, because indigestion itself signifies every organ and every nerve and fiber in the body.

What is needed is abundant nutrition, not less, and this means plenty of good, wholesome, well-cooked food and some natural digestive to assist the weak stomach to digest it.

This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted, and this is the way they cure the worst cases of stomach trouble.

The present state of plenty of wholesome food, and Stuart's Dyspepsia Tablets digest it for him.

And this is in accordance with nature and common sense, because in this way the whole system is nourished and the overworked stomach rested, because the tablet will digest the food whether the stomach works or not. One of Stuart's Dyspepsia Tablets will digest 1,800 grains of meat, eggs and similar food.

Any druggist will tell you that Stuart's Dyspepsia Tablets is a remedy of extraordinary value, and probably the purest and safest remedy for stomach troubles.
